Amee Chhatbar

chhatbaramee3@gmail.com +(91) 7990098163 linkedin.com/in/ameechhatbar

Skills

Programming Languages: Java, Python, C++, JavaScript, Shell Script
Java Technologies & Frameworks: JDBC API, RESTful APIs, Spring, Spring Boot, Hibernate
Web Technologies: HTML, CSS, SQL, React.js
Databases: MySQL, PostgreSQL
Tools & IDEs: VS Code, IntelliJ IDEA, Android Studio, Anaconda, Eclipse, Git, Maven, Gradle, Postman
Soft Skills: Problem-solving, Analytical Thinking, Effective Communication (Verbal & Written), Team Collaboration

Experience

Transform Hub, Mumbai, India| Associate Software Developer Jul 2025- Present

- Integrated **Keycloak** for secure user authentication and role-based access control within the existing system.
- Developed responsive **UI components** using **React.js** and **Tailwind CSS**, enhancing user experience and interface consistency.
- Debugged and optimized **Power Automate workflows**, improving automation reliability and data flow efficiency.
- **Redesigned database queries** and implemented **connection pooling**, reducing API response latency by **40%** and supporting **3× higher concurrent user load**.

Indian Space Research Organisation (ISRO), Ahmedabad, India| Research Intern Jul 2024- Oct 2024

- Developed **predictive models** for **convective cloud identification**, achieving **90% classification accuracy** using **INSAT-3DR satellite imagery** and **lightning datasets**.
- Applied **supervised learning algorithms** (e.g., **Random Forest**, **SVM**) to analyze multi-dimensional **meteorological data** for enhanced **weather forecasting accuracy**.
- Implemented **data preprocessing**, **feature extraction**, and **model validation pipelines**, improving **prediction reliability** and **computational efficiency**.

Brainybeams Technologies Pvt. Ltd | Ahmedabad, India |Machine Learning Intern Jul 2023- Aug 2023

- Developed an ML model for sonar signal classification, achieving 86% accuracy in identifying underwater objects.
- Applied supervised learning on the Sonar dataset for robust model training and testing.
- Enhanced data visualization and analysis to support data-driven decision-making in object classification.

Projects

Community Portal- Spring Boot, RESTful APIs, MySQL, Hibernate, Postman GitHub

- Built a scalable backend system for community-based interactions using **Spring Boot** and **Hibernate**.
- Designed **RESTful APIs** for user registration, authentication, and role-based content management.
- Optimized **MySQL** entity relationships, improving query performance by ~25%.
- Tested and validated APIs using **Postman** for consistent reliability.

ShelfIt- Java, JDBC API, MySQL, OOP, BufferedReader GitHub

- Developed a **Java-based Bookmark Management System** to organize books.
- Applied **OOP principles** for modular design and scalability.
- Integrated **JDBC API** with **MySQL** for efficient CRUD operations.
- Added features like **search with filters**, "**To-Do**" & "**Read**" lists, and **role-based content moderation**.

Sorting Visualiser

- Developed Sorting Visualizer, a tool to demonstrate sorting algorithms step by step for educational purposes.
- Utilised Java and Spring Framework for implementation, collaborating as part of a group project.

Achievements, Leadership and Certificates

Oral Presentation at Tropmet Conference | NIT

- Presented research on **Machine Learning-Based Identification of Convective Clouds** at the national Tropmet Conference, selected from entries across India.

1st Place Winner Code Strom, Techfest-2023, Indus University.

Coding Club Coordinator | Student Activity Cell (SAC), Indus University **Oct 2022 – Oct 2023**

- Organized and led coding workshops and events for the university coding club, fostering a collaborative learning environment for students interested in programming.

Completed **Master Java, Spring 6 and Spring Boot 3 with JDBC, Spring JPA, Spring Security, Docker and Microservices with Telusko** certification
Completed **JAVA + DSA COURSE done from Apna College** certification
Completed **JAVA In-Depth: Become a Complete Java Engineer!** from Udemy certification
Completed **Cloud Foundational Course (AWS)** certification

Education

Bachelor of Technology in Computer Science and Engineering Sep 2021- May 2025
Indus University | CGPA: 9.6 / 10
XII (CBSE) | Puna International School | 83% May 2020- March 2021
X (CBSE) | Zebar School for Children | 93.4% May 2018- March 2019
